

Woof Beginnings raise awareness of dog rescue by doing several things:

We encourage independent dog rescue organisations to advertise their dogs for rehoming.

We provide and maintain current information on volunteers who are prepared to offer their services for the transportation of rescued dogs, home-checking of prospective forever homes and other dog-related services.

We provide and maintain a central electronic network of links to all our registered dog rescue organisations.

We promote the public awareness of dogs who have been waiting long-term for forever homes.

We provide and maintain details of current legislation which relates to dog ownership.

We promote services which are considered vital to the health and wellbeing of dogs and dog ownership.

Woof Beginnings was established to raise funds for, and raise awareness of **ALL** independent not-for-profit dog rescues supporting **ANY** breed.

Currently, we operate from Southport, but have members living across the UK.

Our aims are simple. We want to make sure every dog in rescue has the greatest chance to find their own forever home, as well as raising funds for rescue organisations who may be facing financial difficulties in caring for these dogs.
